### 1. Please give an overview of ship arrest practice in your country.

Conditions imposed by Romanian law:

- a)** Indicate and provide evidences to the Court that plaintiffs have started the main legal action (Court action or arbitration proceedings according to the provisions of the C/P or B/L) against the defendant. The evidence should be a letter from a Court, apostilled according to Hague Convention 1961 or a letter from the arbitrator appointed showing that arbitration has started;
- b)** Indicate and provide evidences to the Court that the defendant in the main proceedings is the owner of the vessel;
- c)** Provide a bank letter of guarantee to the Court as a percentage of the claimed amount (the amount will be fixed by the Court, but in most of the cases is 5%). In accordance with the new Civil Procedural Code which entered into force on 15th of February 2013, the amount of the guarantee should be placed in cash and is limited at 20% of the claimed amount.

In case the matter is very urgent, vessels can be provisionally arrested through the Harbor Master, paying a tax of Euro 400 (Saturdays and Sundays Euro 800).

A notice of arrest will be notified to the Harbor Master.

Harbor Master will place the order of arrest to the vessel's file and will not interrupt in any way vessel's operations. Notice of arrest will become effective when the vessel will finalize operations and vessel's agent will attend Harbor Master to receive vessel's permit to leave outside. Starting with the hour when vessel's agent will ask for the Permit to leave, Harbor Master will count 24 hours (Saturdays and Sundays are not included within this hours anyway) and the vessel will be arrested for 24 hours. During these 24 hours, plaintiff will need to apply to the Court asking for the arrest of the vessel. Courts are judging these cases on an urgent basis and normally are issuing the decision within 24 hrs. There is no need for the time being to place the counter-security which will be requested by the Court at a later stage.

Court costs are low. Lawyer fees normally calculated on hourly basis Costs are usually recoverable from defendant.

### 2. Which International Convention applies to arrest of ships in your country?

Romania has acceded to the International Convention for the unification of rules about the arrest of vessels, signed in Brussels on May 10th 1952, on November 8th 1995. For the participant states of the 9th Diplomatic Convention of Maritime Law, it was enforced on February 24th 1956.

Article 8, paragraph 1 of the Convention provides that its provisions are applicable in any contracting state to any vessel that carries the flag of a contracting state. Paragraph 2 of the same article concedes the possibility that vessel that carries the flag of a non-contracting state may be arrested in one of the contracting states according to one of the claims listed in Article 1, or according to any other claim that permits the arrest according to the laws of that state. Romanian Courts are applying this principle when are taking into consideration the arrest of one vessel in Romanian jurisdiction.

### 3. Is there any other way to arrest a ship in your jurisdiction?

No.

### 4. Are there alternatives e.g. saisie conservatoire or freezing order?

No.

5. For which types of claims can you arrest a ship?

A ship can be arrested in Romania for one or more of the claims listed in article 1.1 of the 1952 Arrest Convention. Ships may be arrested in Romania also for one or more of the claims listed by the 1926 Maritime Liens and Mortgages Convention.

6. Can you arrest a ship irrespective of her flag?

Paragraph 2 of the article 8 of 1952 Arrest Convention mentions the possibility that vessels that carries the flag of a non-contracting state may be arrested in one of the contracting states according to one of the claims listed in Article 1, or according to any other claim that permits the arrest according to the laws of that state.

Sister ships may be arrested in Romania, following the provisions of the articles 951-952, 959-968 of Romanian Civil Procedural Code and not the provisions of the 1952 Arrest Convention. Romanian Courts are reluctant to order the arrest of sister ships, although this is possible. Ships in associated ownership cannot be arrested in Romania.

9. What is the position as regards Bareboat and Time-Chartered vessels?

According to recent jurisprudence from the Romanian Courts involving a ship arrest in Galati, the Court has set the amount of the counter-security at 1.5% from the claimed value.

11. Is there any difference in respect to arresting a ship for a maritime claim and a maritime lien?

14. Do you need to provide a POA or any other documents of the claim to the Court?

15. What original documents are required, what documents can be filed electronically, what documents require notarisation and/or apostille, and when are they needed?

There is no need to provide original documents to the Court, only copies mentioned to be true copies will be provided to the Court, on the understanding that originals will be kept by the law office. It is necessary to be provided with originals of the documents, or Notary certified copies in order to translate them into Romanian and present legalised translations to the Court, taking into consideration that Public Notaries will not legalise translations without being provided with the originals of the documents. The evidence that main claim proceedings has been instituted should be a letter from a Court, apostilled according to Hague Convention 1961 or a letter from the arbitrator appointed showing that arbitration has started.
